PROFESSIONAL SUMMARY

Entry-level **Java Developer** and B.Tech Computer Science graduate with hands-on training in **Core Java, Java 8, Spring Boot, REST APIs, Hibernate/JPA**, and **SQL** databases. Familiar with **Spring Security and JWT** authentication, backend development practices, and full-stack integration with React.js. Completed a **Java Full Stack trainee program** with Capgemini and TNS India Foundation, with a strong grounding in **OOP, data structures and algorithms**, and Agile/Git-based team workflows.

TECHNICAL SKILLS

Languages: Java (Core Java, Java 8, OOP, Collections), SQL, JavaScript, Python, Data Structures & Algorithms

Frontend: React.js, HTML5, CSS3, Bootstrap

Backend: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, JDBC, Servlets, JSP

Security: Spring Security, JWT, OAuth2

Databases: MySQL, PostgreSQL, MongoDB

Tools & Testing: Git, GitHub, Maven, JUnit, Docker, Postman, Linux, Kafka

EXPERIENCE

Java Full Stack Developer Trainee — Capgemini Technology Services & TNS India Foundation 2025 – 2026
Campus to Technical Careers Training Program (structured training program)

- Completed structured, hands-on training in **Core Java, Java 8**, and **Object-Oriented Programming**, building the foundation for enterprise backend development.
- Practiced backend development with **Spring Framework 5.0, Spring Boot**, and **Hibernate ORM**, including **RESTful API** integration and **SQL** database operations.
- Built dynamic, responsive frontend interfaces using **React, TypeScript**, JavaScript, HTML5, and CSS3 as part of full-stack training exercises.
- Collaborated in team-based exercises simulating **Agile/Scrum** workflows, using **Git and GitHub** for version control and problem solving.

PROJECTS

CartNova — E-Commerce Platform *Repository Link*
Tech Stack: Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, MySQL, Spring Security, JWT, React, Maven, JUnit, Docker, Git

- Developed **RESTful backend APIs** with Spring Boot and Spring MVC for user registration, product management, search/filtering, **shopping cart**, **order placement**, order history, and order status tracking.
- Secured APIs with **Spring Security and JWT authentication**, enforcing **role-based access control** for Admin and User roles.
- Designed a relational **MySQL** schema with entity relationships using **Spring Data JPA and Hibernate**; implemented request validation and **global exception handling**.
- Built **Admin features for product and inventory management** and integrated a React frontend with the REST APIs.
- Wrote **JUnit** unit/integration tests and containerized the application with **Docker**.

SeatSync — Concurrent Ticket Booking System *Repository Link*
Tech Stack: Java, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, PostgreSQL, Spring Security, JWT, Kafka, React, Maven, JUnit, Docker, Git

- Developed **Spring Boot REST APIs** for movie/event listings, show date and time selection, **seat availability and selection**, booking confirmation, booking history, and cancellation.
- Implemented **temporary seat holds** with **transaction management** and database locking in **PostgreSQL** to prevent **concurrent double-booking** of the same seat.
- Modeled the booking domain with **Spring Data JPA and Hibernate** relationships; added global exception handling and **JWT-based authentication** with Spring Security.
- Integrated **Kafka** to publish and consume **booking events** (confirmation and cancellation).
- Tested with **JUnit**, containerized with **Docker**, and integrated a React frontend.

EDUCATION

Manakula Vinayagar Institute of Technology — B.Tech — CSE Oct 2022 – May 2026 | CGPA: 8.35
Lakshmi Chordia Memorial Matric. HSS, Cuddalore Jun 2019 – Mar 2022 | SSLC: 90% | HSC: 85%

CERTIFICATIONS

- Java Full Stack Development — Capgemini Technology Services & TNS India Foundation, Sep 2025
- JavaScript — Information Technology Specialist Certification, Mar 2024
- CCNA: Switching, Routing & Wireless Essentials — Cisco Networking Academy, Jun 2025
